Description

Do you know how to use the web inspector?

Additional details will be available after launching your challenge instance.

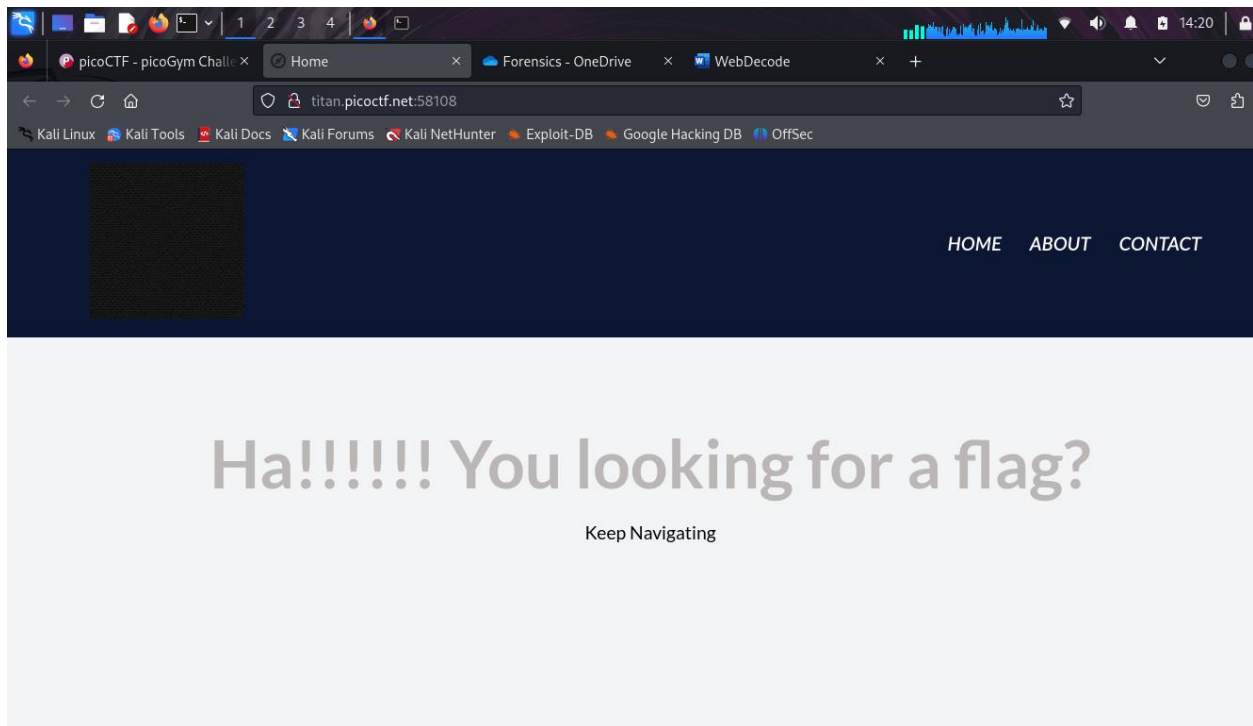

Hints

- *Use the web inspector on other files included by the web page.*
- *The flag may or may not be encoded*

Solution

With those to hints the main goal was to examine the code for all the available web pages in this site looking for a flag or an encoding. *#Something suspicious*

I started with the landing page.

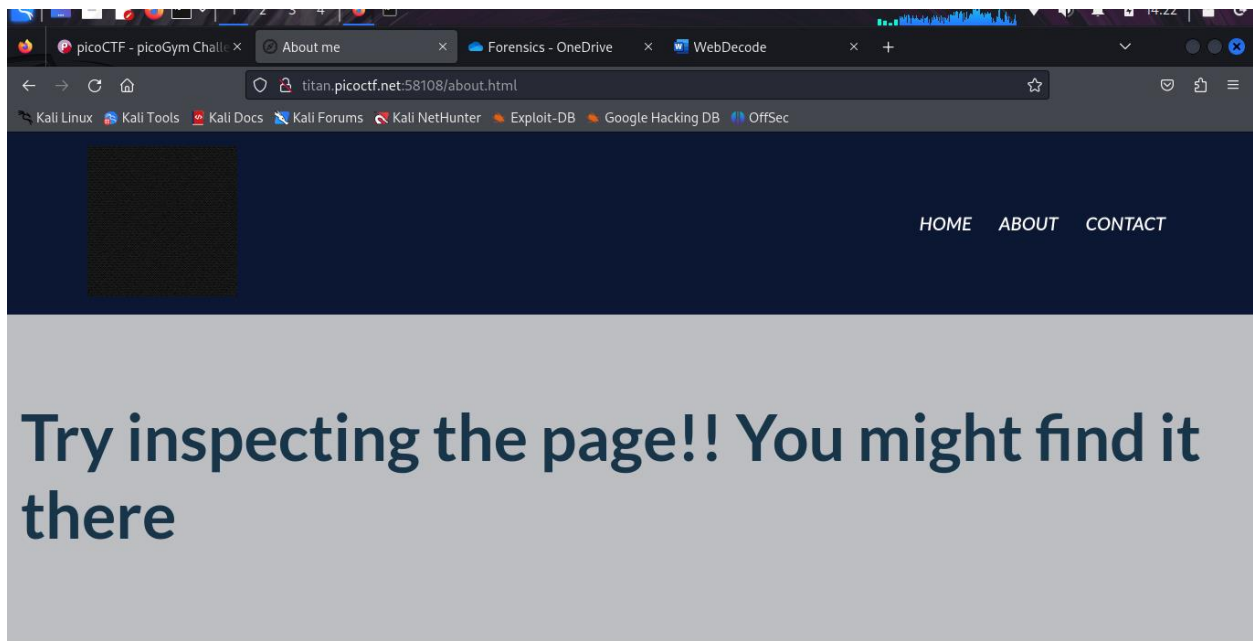

I found no flag or anything suspicious.

I repeated the process for all the pages but in the abouts page source code I came across something that appeared to be a **base64** encoding ”

cGljb0NURnt3ZWJfc3VjYzNzc2Z1bGx5X2QzYzBkZWRFMTBmOTM3NmZ9”

```
31     <a href="about.html">

```

I tried decoding it and that's how i retrieved the flag.
